

1

Professionalism as Drug Expert

Our programme is designed to provide students with the knowledge, skills, and attitude to be lifelong learners and innovators who accept the responsibility of meeting the public's needs for safe, efficacious, and cost-effective medicine. Prepares graduates for a successful career in any healthcare setting by emphasizing problem solving, decision making, critical and creative thinking built upon a strong foundation of basic knowledge and skills.

CUHK Pharmacy Programme Structure

Clerkship / Research Project

Integrated Pharmacy Practice

Pharmaceutical Science

Faculty Foundation Course + Basic Biomedical Science

2

Passion for Patient Care

Pharmacists must have a strong passion for patient care. Accuracy, attention to details, and a strong sense of ethics are integral to pharmacy practice. Students are provided with outreach opportunities to serve patients in the community.

Join CUHK Pharmacy and Become a Successful Pharmacist

CUHK Bachelor of Pharmacy (BPharm) Programme, launched in 1992, is the first UGC-funded pharmacy programme in Hong Kong. It is a 4-year full-time programme that prepares graduates for a 1-year internship before licensure. Over 900 pharmacists in Hong Kong are CUHK graduates, accounting for about 27% of the pharmacist work force.

3

Partnership with Healthcare Sectors

Local Partnership

We have forged a strong teaching partnership with the Hospital Authority, Department of Health, community pharmacies, private hospitals, multinational pharmaceutical companies, and local pharmaceutical manufacturers. We also have the strong support of alumni and leaders in the pharmacy profession.

International Partnership

International Exchange programme provides attachments in various specialty areas such as Community Practice Management, Infectious Diseases, Internal Medicine, Oncology, Organ Transplant etc. Students are engaged in active learning alongside their international preceptors to expand their knowledge and deepen their understanding of pharmacy practice.
