CONGRATULATORY MESSAGE

It gives me great pleasure to be the first one to congratulate the recipients of the Teachers' and Students' Awards of the Faculty of Medicine. Your work has been a true manifestation of transforming one's passion into perfection.

Thank you teachers. Your dedication to the profession of teaching has provided the best learning prerequisite to our students and it is the key to success for the Faculty.

Your roles are vital to the building of a team of medical and healthcare talent who will serve the community in the future. Your passion has inspired our students to be a better person and to give their best to society. Your patience has helped students to grow and overcome the difficulties in life.

Thank you our fellow students. Your hard work has shown us your determination to be a good medical and healthcare professional. As a medical practitioner, I understand all the hardship and frustration you have come across during your studies. Health science is not an easy subject and we are fortunate to have you, the gifted and committed ones, to be our students. The philosopher Aristotle said, “The roots of education are bitter, but the fruit is sweet.” Neither teaching nor learning is an easy task, for both require passion and dedication, and all of you have shown us how to be good teachers and students.

Once again, I would like to congratulate all the awardees; it is a day for reaping the harvest of your hard work and pursuit of excellence.

CONGRATULATORY MESSAGE

The annual Teachers' and Students' Awards Presentation Ceremony is a significant event on the calendar of events in the Faculty of Medicine. This is the one occasion when we get together to openly recognize our inspiring teachers whose passion and dedication to teaching and learning deserve our deep respect. Apart from playing vital roles in providing excellent education, they have students' affairs and well-being at heart. They are role models for students and peers. In honouring them at this occasion, we are paying tribute to all teachers who have contributed to the success of this Faculty in nurturing generations of devoted graduates to serve our society.

This joyful event also presents us an opportunity to celebrate the academic accomplishments of our brilliant students. The Faculty of Medicine selects only the best students. Joining our ranks is an achievement through years of hard work of which your parents have played a very important supporting role. Please join me in congratulating and thanking your parents who are proud of you. Studying a professional programme at CUHK is only the beginning of a lifelong career in the medical and healthcare field. Winston Churchill said, “Success is not final, failure is not fatal: it is the courage to continue that counts.” I am hopeful that all students in the Faculty of Medicine not only learn by heart but also practice this pithy advice to achieve and to sustain success in their career and personal life.

Finally, I would like to take this opportunity to express my gratitude to our benefactors and donors. Your generosity is a great encouragement to our students. We deeply appreciate your unaging and continuous support in our pursuit for excellence.
